OVERVIEW

Florida International Chamber of Commerce has been promoting International Commerce and Tourism between the State of Florida and other international Countries for the past 19 years.

Over the course of our existence and through our activities we have been responsible for the inward investment in Florida of over \$750,000,000 from International Investors, entrepreneurs and businessmen who have either expanded their business into Florida, or relocated to Florida through the L1, E2, or EB5 Visa programs.

We pride ourselves in assisting all international businesses and entrepreneurs from other countries understand the necessary requirements of being able to establish their business in Florida through our educational seminar tours.

We have partnerships with Enterprise Florida, Visit Florida, EDC Sarasota County and over 150 other commerce based organizations that assist us with new international investors. Our assistance assures the information and facts they need, are current and correct, in order for them to make sound business decisions.

The information to be given by our non-profit organization and our partner organizations support international entrepreneurs, and protect their interest as much as help them to realize their business goals and investments in Florida.

Through our support our partners not just have great chance to establish their business in Florida by increasing their profit, the informations and our support at same time helps them to prevent to lose their money.

We have been presenting seminars for over 15 years and have partnered with other International Chambers in the countries that we participate in. We have successfully educated many international businessmen and entrepreneurs at our educational forum and always receive high marks from our attending delegates. We are full disposal for our future partners through our European Center Office in Budapest or in London. Our Ambassadors, Associates, Representatives are ready to help and give wide information about our service and the opportunity to get all the benefits what we are representing for.

The education provided by our Chamber not just helps entrepreneurs to obtain their visa, we support them before and after they obtained the visa and make complete their immigration and relocation process together with their Family members.

We are working together with our strategic partners and project companies who are providing investment opportunities for people who don't want to enjoy the Florida Lifestyle, but wants to get investment benefits from the Florida real estate and business markets.

We keep the business development under the Chamber's control, provide security and background support. The property and investment management companies and experts are mentoring by the Chamber and we continuously monitoring their activity which provides significant protection for the owners of real estate or business investments.
